## ABOUT US

We are a team of professional, energetic individual's with talented designers and experienced managers available to guide our client's through the flawless and timely execution of any residential remodeling & turnkey interior design project.

With over 30 years of experience in successfully completing hundreds of remodeling & renovation projects in the Middle East & India, our portfolio is brimming with ideas to suit most tastes and budgets.

Over the years we have amassed a list of suppliers worldwide and a network of trades and craftsmen at our disposal to carry out any project.

We offer a wide range of services, from helping you to choose a colour scheme to the design, sourcing and project management of a total property remodeling activity.

In our view it always remains your project, so it is our job to take the time to identify your tastes and needs so we give you exactly what you are looking for.

We interpret ideas rather than impose them.

## OUR PHILOSOPHY

We place special emphasis on blending the personality of the client and the essence of the space, combined with a "natural elegance" approach to design, to create an ambience that would last a generation, if not a lifetime. Our team of designers and engineers work closely with the client over the course of the project to achieve a highly desirable living environment.

We take pride in creating luxurious and innovative homes that have a very intimate connection to our clients and their families. We understand that each project we do has specific needs, budgets, and a level of quality with the work involved. We rely on our professional knowledge and advanced experience to walk our clients through the process of interior remodeling, and interior finishing with exceptional customer service.

Every member of Teqmark becomes an integral part of the collaboration process to deliver an authentic style and home identity for our client's residential spaces. Our associates work passionately to offer turnkey services to our clientele.
